

IN ANESTESIA

INTRODUÇÃO À ANESTESIOLOGIA CLÍNICA

9th January

11:00 - 13:00	Course Opening
13:00 - 14:00	Lunch
14:00 - 17:30	Hands-on training: airway, peripheral IV placement, central IV placement, arterial catheterization, guided by ultrasound

10th January

09:00 – 13:00	Hands-on training: airway, peripheral IV placement, ultrasound guided central IV placement, arterial catheterization; General anaesthesia induction demonstration (simulator), clinical interview with standardized patients
13:00 – 14:00	Lunch
14:00 – 19:30	Hands-on training: airway, peripheral IV placement, ultrasound guided central IV placement, arterial catheterization; General anaesthesia induction demonstration (simulator), clinical interview with standardized patients

11th January

09:00 – 13:00	Hands-on: Ventilators: How they work? Monitoring during anesthesia
13:00 – 14:00	Lunch
14:00 – 19:30	Hands-on: Ventilators: How they work? Monitoring during anesthesia

12th January

09:00 - 13:00	Hands-on training: Epidural, Subarachnoid block, ultrasound guided nerve blocks
13:00 - 14:00	Lunch
14:00 - 17:30	Hands-on training: Epidural, Subarachnoid block, ultrasound guided nerve blocks

13th January

09:00 – 11:00	Written Assessment Course evaluation
13:00 – 14:00	Closing Session
